Hello SDAIHA members,

Sarah Meyer recently sent out a request for pictures of industrial hygienists in action. I went through that same exercise a couple of years ago and got a minimal response. I did get some pictures that are on the website but we would like some new ones so our website is dynamic. Please participate in your local section; let's give her some pictures of IH's in action.

I also attended the Toronto AIHCE. I thought it was one of the best I've attended in a long time. The conference center was designed so the conferences and exhibits were within an acceptable walking distance; the weather was perfect and there were lots of eating places outside the convention center. The shuttle system seemed to work very well also. The program was great also; I focused on construction industrial hygiene.

The general meeting presentation by OSHA on August 26th was also very enlightening. I did not know about the various recognition programs (SHARP, VPP, etc.); I was especially interested in seeing the names of the companies in San Diego County who are participating.

See you at the meetings.

Sincerely,

A handwritten signature in black ink that reads "Nic".
